Art Unit: 1617

CLAIMS 1-44, 60-67 AND 81-91 ARE PRESENTED FOR
EXAMINATION

DOUBLE PATENTING REJECTION

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-44, 60-67 and 81-91 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1,4 and 5 of U.S. Patent No. 5,972,932. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims encompass compositions which are similar or are obvious. Specifically, claims 1, 9, 10 and 13 exemplify the obvious type double patenting rejection. Claims 1 and 10 of the application recite the combination of olanzapine and a Drug Useful in the Treatment of Pain.(claim 1) and claim 10 which depends from claim 1 recites the Drug Useful in the Treatment of pain to be an opioid. compound. Claim 1 of ' 932 recites olanzapine and an opioid. The difference between the application claims and '932 is that the preamble in the

Art Unit: 1617

application is drawn to compositions for the treatment of pain and the compositions of '932 are drawn to anesthetic compositions since the preamble in this instance has been given weight as olanzapine has not been known for this treatment recited in the preamble. Therefore, the '932 claims are deemed generic to the claims of the application since the intended use of the compositions is unobvious. See *Eli Lilly & Co. vs. Barr Labs, Inc.* 251 F.3d 955; 58 U.S.P.Q.2d 1865 (Fed. Cir. 2001)

Similarly claims 9 and 13 of the application are obviated under 35 U.S.C. 103(a) since they read on claims 4 and 5 of the '932 patent as follows:

'932		Application	
Compound recited		Compound recited	
Claim 4	Morphine	Claim 9	Morphine
Claim 5	buprenorphine	Claim 13	buprenorphine

Applicants are advised that additional combination may be present in the claims.

The previous allowance and rejections of claims 1-44, 60-67 and 81-91, respectively, are withdrawn.

REQUEST FOR SUPPLEMENTAL DECLARATION

In accordance with 37 CFR 1.175(b)(1), a new reissue oath/declaration under 37 CFR

1.175(b)(1) must be received before this reissue application can be allowed.

All claims are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is that the declaration fails to set forth a specific errors as required. The present declaration only sets forth errors in general and is therefore defective.

Art Unit: 1617

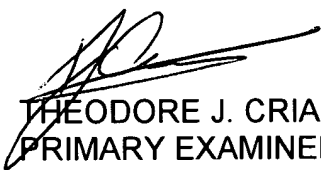

Receipt of an appropriate new supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251.

It is also suggested that applicant telephone the examiner to resolve the issue of Double Patenting to accelerate prosecution of the application.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Theodore J. Criares whose telephone number is 308-4607. The examiner can normally be reached on 6:30 A.M. to 5:00P.M. Monday through Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sreeni Padmanabhan can be reached on 305-1877.
